

Together empowering development...

Who is RDA 4?

The Regional Development Agency 4 (RDA 4) is an Albanian public body established with the Council of Ministers Decision No 961/02/12/2015 within the context of the new Albanian governmental policies for the regional development. It started to operate on late September 2016, in accordance with the Operational Program for the Regions Development approved by the Committee of Regions Development on March 2016. RDA4 operates based on funds from projects and programs of international agencies and projects of Regional Development Fund.

Vision

Dedicated to a balanced regional development as an important condition for the harmonious and smooth development of Albania.

Mission

The mission of RDA4 is to support policy development in relation to the aim of territorial cohesion and a harmonious development of the region through smart, sustainable and inclusive growth

Geographical area & Partners (20 municipalities)

- Vloora Region with its municipalities:
 - Vloora

Our work

- Develop and implement programs and projects that lead to reduction of disparities between municipalities, improved infrastructure (physical, services and communication), boost local entrepreneurship, better social services and reduction of gender inequality.
- Integrated public investment for territorial development of the region and its potential values.
- Creation and setting-up of models of public - private partnership for common development interests.
- Encourage a much broader pattern of cooperation and promotion of regional and interregional partnerships;
